

MORE WAYS TO SAVE \$\$\$

1 **Get as many things as you can, such as invitations, cards, favors, dinner.** "You only live in your imagination," says Leticia. "Or ask your relatives and friends. We never knew the hidden talents lying within. I even had a bride who sewed her own wedding dress and evening gown!"

3 **Not all of us can afford a Kardashian wedding. Also, don't be swayed by the many pretty wedding sights you see online.** "Be practical," advises Cindy. "There is no need to follow all that you see on the Internet."

2 **Prioritize.** Think of what you can splurge on... and what to save. Leticia's tip? "Splurge on a good photographer because all you have are the photos after the wedding day. Hire an decorator, make use of your venue!"

4 **Stick to your budget!** "Don't let your wants overcome your needs," says Leticia. The best way to keep to your budget? "Keep an excel sheet to note your budget as well as how much you've spent," says Cindy.
