NEAR OR FAR, MY LOVE IS TRUE

**THEIR STORY**

Maysan and Zack is a living proof that true love can survive long distance relationship. They got married in a local church St Ignatius, Petaling Jaya where Zack attended through his growing years, for sentimental reasons.

*"We are both working as medical doctors. We met ages ago while studying in college. We dated for three months before Zack left for Australia to pursue his medical degree and I left for United Kingdom. We had 7 years of long distance relationship, where countless phone calls, text message, Skype dates and travels became our means of communication. We relocated to Singapore in 2009 and a year later, Zack asked for my hand in marriage."*

#### THE ATTIRE

"I found my dream dress at Designer Bridal Room, my mom and I could not stop smiling the moment I put them on. I knew it was the dress! My cheongsam was made-to-measure by very talented people at Divine Couture."

### THE WEDDING

The couple had initially wanted a destination wedding but opted for a wedding celebration back home in Kuala Lumpur due to their grandparents inconvenience to travel. *"My grandma is 100! The Westin was chosen based on Leticia, our wedding planner's recommendation of its immaculate service, excellent food, as well as the ballroom."*

### THE THEME

*"The keywords for our theme were spring, fresh, foliage and trees,"* says the bride, delightfully describing her wedding inspiration. Light pink and touches of green is used for the day ceremony while the reception uses darker shades of pink for dramatic effect.

### THE GUESTS

*"The wedding was all fun and laughter especially with the clever photobooth they had, "our guest could not get enough of the photobooth. It was cute seeing even grandpa decked with a pink feather boa and top hat. At the end of the night, we surprised the guests with a montage of their funny photos to the song Love Me Do by the Beatles, with the final photo being Zack and I holding up a 'thank you' sign." sw*
